車燈	前後照明、剎車燈	lamp	front and rear lights,brake lights
爬坡能力	30°	gradeability	30°
防水等級	IP56	waterproof	IP56
N.W.16.5kg	G.W.20kg	N.W.16.5kg	G.W.20kg
產品尺寸	119x47x115cm	size	119x47x115cm
包裝尺寸	119x21.5x58cm	package size	119x21.5x58cm
電池	36V、15.6A	battery	36V、15.6A
→	20'GP:170PCS、40'GP:350PCS、40'HC:420PCS		

## Three modes, one satisfaction

ECO
energy saving mode

D
normal mode

S
sports mode

You can choose energy-saving mode/normal mode/sports mode according to the current environment to make riding smoother.

Headlights, illuminate the future

In the power-on state, just one button allows you to ride unimpeded at night.

Braking System

Electronic drum brake, through braking measures, can be in a short time and within the distance, reduce the speed or stop in time and quickly.

Rear lights
warning vehicles behind

Press the brake system, and the rear warning light will flash, prompting the vehicles behind to slow down , so that you and I can have an extra guarantee of safety.

tire size

The 10-inch large-size tire has a thickness of about 57mm. Compared with smaller tires, it has better stability and shock absorption performance, ensuring driving safety and galloping with wind.

folding design

Different from the previous folding design, there are three simple steps: dial, press, and buckle, fast folding, stable and convenient, easy to carry after folding, let the beauty go with you
